

Trained by the people that are winning the awards!

Our trainers are running accounts... and they're running them very well!

They're in the platforms daily and have relevant experiences and up-to-date knowledge to share.

This is Adam.

An expert in data manipulation, Adam is happy to share what he's discovered about data piping and visualisation in Data Studio.

Typical Training Content

Take your reporting to the next level by using Google Data Studio to create custom, dynamic dashboards. Make the most of the tool, from the basics to advanced tips and tricks.

- ▲ **Build Reports and Data Sources**
 - ▲ Understand how Data Studio works and how to pipe data to your dashboards.
- ▲ **Customise your Data and Dashboards**
 - ▲ Learn more about the custom visualisations available and how to build your own custom fields based on pre-existing data.
- ▲ **Bringing Data Sources Together**
 - ▲ Learn how to best utilise the data blending feature in Data Studio to enrich the story your dashboard is trying to tell
- ▲ **Build Long Lasting Reports**
 - ▲ Learn best practices around usability to allow your reports to be as accessible as possible for your stakeholders
- ▲ **Tips and Tricks**
 - ▲ Learn some helpful shortcuts and visualisation tips from trainers who have hundreds of hours of experience with the tool

Our office is 10-minute walk from **London Bridge and Tower Hill**. All training rooms are very well equipped and comfortable.

We will structure the day around you and your team. Most sessions are a half day from **10am and 2pm** with lots of breaks along the way.

Feel at home in our client kitchen area with as much coffee, tea or squash as you fancy. For all-day sessions, **lunch will be provided** along with ample fruit and biscuit snacks.
